ADAPTER CHARACTERISTICS

WATERPROOF

Provides permanent protection against harmful ingress of water. Even after submersion in water, the foot's structural parts maintain their integrity and continue to provide full support, function and durability.

WEATHERPROOF

Allows for use in a wet and/or humid environment but does not allow submersion. Fresh water splashing against the enclosure from any direction shall have no harmful effect. Dry thoroughly after contact with fresh water. Fresh water: Includes tap water. Excludes salt and chlorinated water.
