Rebound®
Post-Op Knee

Rebound®
Post-Op Elbow

REBOUND® POST-OP BRACING

Easy to fit. Easy to use.

The Rebound Post-Op Knee & Rebound Post-Op Elbow are designed with two priorities in mind: ease of fitting for practitioners and ease of use for patients.

Simple and intuitive.

Tool-free design makes fitting fast and easy, while the numbered strapping order and color-coded patient touch points simplify patient education and product use.

Total control.

Use the OneTouch™ hinge to quickly and easily set patient range-of-motion. Then, secure your range-of-motion settings in place with lockout clips to further reduce the risk of patient non-compliance.

Comfortable and secure.

Rebound Post-Op Knee and Rebound Post-Op Elbow have ergonomic paddles and contoured hinge struts that improve comfort and anatomical fit, as well as anti-migration features to help ensure secure suspension.

THANK YOU FOR SUPPORTING ÖSSUR IN 2021

Throughout its challenges, it has been our greatest pleasure to support our clinical partners in 2021. We have worked to deliver undisrupted customer service and logistics support, and hope we have been able to meet your expectations in 2021. Össur would like to acknowledge all of our customers for supporting us and thank you for trusting us to be a preferred supplier to your clinic or facility.

This year amongst lockdowns we completed the build of our new Melbourne offices and warehouse. We have also recruited new staff in our sales, customer service, warehouse, marketing and finance departments. It's been a year of positive changes whilst also focusing on becoming a carbon neutral company via our global and local green initiatives.

Össur New Zealand Update

In 2022 we will see some exciting changes including New Zealand trading from January 1st. Our NZ bracing and supports representative will be joining our prosthetics personnel in New Zealand as soon as border restrictions allow, to offer clinical and product support to all NZ customers.

We also plan to continue our commitment to providing superior clinical resources including our webinar series which will start again in February 2022. We have an exciting line up of presenters that we cannot wait to share with you.

Thank you once again to all of our customers who recently participated in our annual customer survey. The feedback suggestions are valued and we look forward to implementing some of these great initiatives next year. If you missed out on the survey, please let us know if there are any feedback comments or suggestions you would like to share with us.

We wish everyone a very safe and happy holiday season from everyone at Össur.

Join our Össur Webinar Database

Throughout the year, Össur Academy hosts live online webinars, covering a range of topics. Join our mailing list to receive notification on upcoming webinars when they release throughout the year. Check out our [Össur webinar page](#) to watch recordings from our previous webinars.

2022 Product Discontinuation Notification

We wish to notify you that Össur will discontinue a number of products in 2022 in addition to the Unloader One Lite discontinuation that was notified in April this year. The products to be discontinued include:

- All SUR-FIT TLSO and CTLSO models including custom order models
- Ezy-As Stocking Applicators
- Custom 1cm/2cm/3cm Heel wedges
- Unloader One Lite

Össur ANZ will stop selling these products on the 31 December 2021, however, depending on local warehouse inventory some sizes may sell out sooner. We are unable to order further stock, so if under the circumstances something becomes unavailable, no backorders will be held.

Your territory representative will be in contact shortly to discuss stock availability with you should you need anything, as well as alternative options. Some items still available will also be eligible for a discount, which your representative will be able to advise on.

If you currently hold any consignment stock, we will be requesting this is returned to us or purchased if you decide to retain this stock.

This discontinuation will allow Össur to continue its ongoing investment in the global bracing and supports portfolio. We look forward to sharing future product developments with you.

We will endeavor to answer any concerns as best we can, and rest assured that we will continue our clinical and technical support of the Össur Unloader One Lite for as long as you still have stock on hand or on patients. We thank you for your understanding and encourage you to reach out to us with any further questions you may have.

TAS	Wednesday, 15 December 2021
QLD	Thursday, 16 December 2021
VIC	Friday, 17 December 2021
NSW	Friday, 17 December 2021
ACT	Friday, 17 December 2021
SA	Friday, 17 December 2021

2022 Price Notification

From 1 January 2022, Össur ANZ – Bracing & Supports will implement a price increase across our range of products. This price increase does not apply to all products or to any formal pre-existing price contracts/agreements or tender arrangements. Should you have any questions related to this price change; or would like a copy of our price list, please do not hesitate to contact your local Össur representative or Customer Service on 1300 123 26.

Meet Our New Staff

This year our warehouse team have shipped out more items than ever before. The team has recently expanded with the addition of two new members we would like to introduce:

Matthew Perano
Warehouse Assistant - VIC

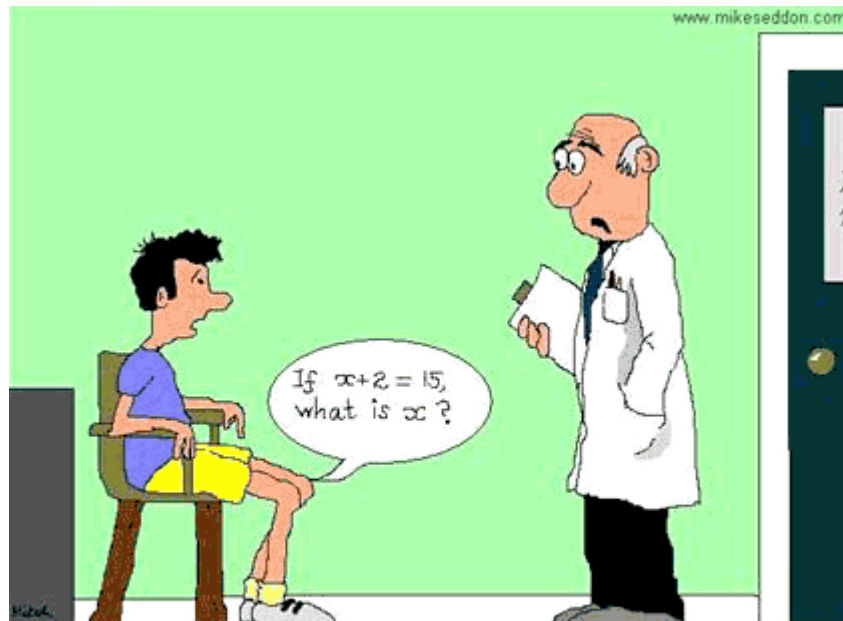

This month Össur welcomes Matthew Perano to our warehouse team as a warehouse assistant. With 14 and a half years of experience in store management, Matt will be a welcome addition the warehouse team based in Melbourne.

Madison Brown
Warehouse Assistant - VIC

This month Össur welcomes Madison Brown to our warehouse team as a warehouse assistant. Formerly being an Össur CTi ambassador, Maddy knows ligament braces first hand and will be a valuable member to the warehouse team in Melbourne.

Joke of the Month

" It's my knee, Doctor. It's still giving me problems."
