## On Track to Achieve an Environmental Milestone

We care about the environment and take our responsibility seriously. That's why we are actively reducing our carbon footprint and to commemorate the Company's 50th anniversary, Össur will be carbon neutral in 2021.

### How will we do it?

- ✓ Actively reduce emissions from our operations
- ✓ Improve energy efficiency at our locations
- ✓ Source 100% electricity from renewable energy sources
- ✓ Offset the remaining emissions by supporting

emission reduction projects

Understanding our carbon footprint is essential to taking strong action. We believe there are further opportunities, and we are working towards understanding the environmental impacts of our whole value chain.

## Don't Miss Out on our Next Webinar

DR AMY TOUZELL  
*Orthopaedic Surgeon*

JOSH FERGUSON  
*Physiotherapist*

### From Rupture to Running - Holistic Management of Achilles Tendon Injuries

Join Dr Amy Touzell, an Australian trained orthopaedic surgeon and Josh Ferguson, a titled APA Sports Physio who will be presenting on surgical and conservative management of Achilles tendon injuries. Dr Amy Touzell will cover surgical techniques, when she chooses to operate and her conservative management protocols. Josh Ferguson will also cover the rehabilitation process for patients after a rupture or TA injury, to help them return to activity and best function.

**Date:** Thursday, 18 March 2021

**Time:** 7:00pm - 8:00pm AEDT

# Miami Lumbar<sup>®</sup> Posteo

Designed with patient comfort and compliance in mind, Miami Lumbar Posteo provides functional relief of vertebral fracture pain, and facilitates return to mobility. The lumbar compression system offers both pain relief via active vertebral offloading and better grip of patient's hips for greater ease of use and compliance. Miami Lumbar Posteo includes an innovative approach to ease of use and consistent donning

## Key Features

- Active offloading via thoracic extension and lumbar compression.
- Integrated pulley system for customised fit.
- Trimmable axillary straps with adjustable tension for optimal stabilisation.
- Cold-mouldable aluminium PTE to fit different anatomies.
- Extra cushioning around the aluminium strut for minimised skin pressure.

## Indications

- Back pain caused by stable vertebral compression fractures (VCF)
- Post-operative immobilisation
