## [i-Limb Titanium Tough Webinar](#)

Presented by Sarah Mulroy-Lang, this webinar covers the upgrades to i-Limb Quantum, including the addition of the Titanium Digits, which provides the user with a more robust hand with 50% more carry load. The webinar also covers the significant improvements made to the gearbox, thumb torque and finger belts, alongside features and benefits of the i-Limb range, prescription considerations and reimbursement.

## Chase's Direct Socket & Pro-Flex LP Torsion Story

"The fit is perfect and they're so light and comfortable that I don't feel like I'm wearing anything compared to my previous prosthetics. The Direct Socket System provides the custom comfort, support, and sense of freedom I never had in my previous sockets. I can walk longer distances and even jog without any pain or discomfort. They also look so awesome that I'm more confident and happier to show them off. I love my legs!" -

Chase Blackman
