

## Rheo Knee & Proprio Foot - Better Together

Rheo Knee and Proprio Foot together form one of the world's most advanced complete bionic solutions that promotes walking ease and stability.

Rheo Knee's low-drag and rapid response to cadence changes reduces walking effort, and the Proprio foot provides 4-degrees of mid-swing dorsiflexion which reduces trips and falls. The Proprio Foot adapts quickly to terrain and slopes by adjusting to the ramp angle with 33-degrees range of motion. Rheo knee provides yielding resistance for descending slopes and stairs and intelligent stance controls to walk safely backwards or when moving in confined spaces.

Both the Rheo Knee and Proprio Foot can be programmed utilising Össur Logic, and the app can be used to perform automatic ankle alignment to prevent malalignment when changing between footwear. To see the unique benefits of this complete bionic solution, watch the video below.

## POWER KNEE™ Webinar Recording is Here!

Incase you missed it, a recording of Sarah Mulroy - Lang's webinar is now available to watch online. Join Sarah in her introduction to Össur's **POWER KNEE™**, the first and only Actively Powered Knee that ushers in a new era in prosthetic technology. Building on MPK technology benefits, the addition of Active Power provides unprecedented capabilities by creating motion. The POWER KNEE™ provides active assistance while walking on level-ground, climbing and descending ramps or

stairs, and when standing up. Power Knee enables amputees to achieve more by improving symmetry, endurance, and stability.

## Jamie's RHEO KNEE<sup>®</sup> XC & Pro-Flex<sup>®</sup> XC Story

Jamie Nepia is a single mum of five living in New Zealand and recently made the decision to amputate her leg in 2018, following a shotgun wound injury.

Initially, she found it difficult to come to terms with her amputation and experienced bullying through social media. In the process of overcoming these challenges, Jamie started boxing to help increase her fitness to find empowerment through learning self defence.

Jamie says she feels much safer with her new [RHEO KNEE<sup>®</sup> XC](#) and [Pro-Flex<sup>®</sup> XC](#). She notices an improvement in her walking and has even started hiking. Jamie will also be participating in her first boxing match in the very first New Zealand Women's Amputee Boxing match!

To read more about Jamie's story, click the link below.
