## The Latest In Sports Prosthetics Technology

Introducing the latest in sports prosthetics technology; **Cheetah® Xceed**, **Cheetah® Xcel** and **Cheetah® Xpanse**. Each new Cheetah Blade has been developed for sport specific dynamics and provide increased energy return and contact area with the ground.

### Cheetah Xceed

Designed for high impact activities such as recreational jogging, trail running, long distance running and triathlons.

[Learn More](#)

### Cheetah Xcel

Designed for explosive short distance sprinting.

[Learn More](#)

## Cheetah Xpanse

Designed specifically for long jump and other athletes requiring an exceptionally heavy load.

[Learn More](#)

Two new interchangeable soles have been developed with Nike, for use on both the track and all terrain, making it quick and easy for the user to change soles depending on activity and environment.

This new eLearning course in Workday takes an in depth look at the new Cheetah Blade range, with prescription considerations covered, as well as recommended alignment set up. You can also view exclusive videos from Team Össur Champions, and a short video on the R&D process with Nike, showing how the new interchangeable soles were developed.

## Seal-In<sup>®</sup> X Locking

Workday eLearning Course

The Iceross Seal-In X Locking liner and Icelock 562 Hybrid lock provide dual suspension for the user, providing the security of a mechanical lock combined with the

benefits of passive vacuum or Unity elevated vacuum suspension.

This new online Workday Learning Course can be taken at any time. It takes an in depth look at the Seal-In X Locking liner and 562 Hybrid lock, with prescription considerations, casting advice, fitting video demonstration and socket manufacturing support.
