## Because the world isn't flat

The PROPRIO FOOT® has been redesigned to enhance the safety and stability features of the original design. It features a Pro-Flex® LP foot module which provides increased range of motion and a higher peak ankle power of 44% from the previous model. The Microprocessor ankle unit adapts to varied terrain 60% faster than the previous, helping users to walk naturally and comfortably on a variety of everyday terrain, including stairs and ramps.

## PROPRIO FOOT®

### Workday eLearning Course

PROPRIO FOOT is an adaptive microprocessor-controlled ankle for low to moderately active amputees, designed to improve safety by increasing toe clearance in the swing phase and adapting to changing terrain.

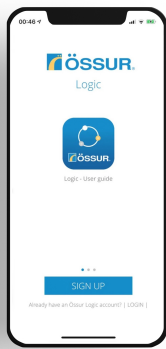

After completing this course, you will be able to understand the challenges that prosthetic users face in their daily lives, including the risk of trips and

falls as well as identify the PROPRIO FOOTs technical specifications and the user profile. You will also be able to recognise the core features of the PROPRIO FOOT.

## PROPRIO FOOT® Össur Logic App and Fitting Sequence

### Workday eLearning Course

The Össur Logic app is already available for connection to the RHEO Knee and can also be used for PROPRIO FOOT. Clinicians can utilise expert mode in order to program the PROPRIO FOOT to the individual user. Össur logic features a user friendly interface with detailed explanations of possible adjustments. The PROPRIO FOOT can be tailored to the user for preferred adaptation to stairs and ramps, and ankle alignment adjustment for varying heel heights.

After completing this course, you will be able to use the Össur Logic app to align and adjust the PROPRIO FOOT by following the fitting sequence steps to fit the PROPRIO FOOT.

## Meet Our New Staff

### **Alex Mulreaney**

#### Customer Care Representative

We welcomed Alex in July 2021 as a Customer Care Representative in our Prosthetics team, joining us with over 3 years' experience in the customer service industry. When asked what she enjoys most about her role, Alex says she loves interacting with customers, working with a dynamic team and being able to positively contribute and make a difference in people's lives. Alex is inspired by Össur's passion of their products and vision in improving people's quality of life. Alex is excited to be part of the Össur Family, she believes in living your best life and loves helping others around her do the same.
