## REBOUND® HIP

KEEP A LOW-PROFILE

### Low-Profile & Lightweight

Össur's Rebound Hip is a universally-sized, low profile and lightweight post-hip arthroscopy brace that allows patients to safely perform daily activities and delivers gentle controlling forces for optimal post-surgical outcomes.

The Rebound Hip could benefit conditions requiring motion restriction including:

- Postoperative after (total) hip arthroplasty
- Postoperative after revision of (total) hip arthroplasty
- Postoperative hip arthroscopy
- Post-op following FAI arthroscopic surgery
- Post-op following Gluteus medius repair surgery

- Post-op following hamstring repair surgery
- Inoperable hip abnormalities
- Preventively when there is risk of hip dislocation
- Conventional treatment after dislocation/reduction

Rebound Hip delivers gentle controlling forces and effective functional ROM restriction in extension/flexion and abduction/adduction to promote optimal post-surgical outcomes. The low profile, lightweight design supports patient comfort and compliance. The universal frame and soft good are easy to stock, assemble and quickly fit.

## Don't Miss Out on our Next Webinar

The growing burden of arthritis - The Promise and Reality of Regenerative Medicine

Join Dr Julien Freitag, as he discusses mesenchymal stem cells (MSCs) ability to differentiate into bone and cartilage that has seen considerable research interest in their potential to assist in musculoskeletal repair and regeneration. Both pre-clinical and early phase clinical trials have shown reproducible benefit of stem cell therapy in managing OA with observed pain, functional and structural improvements..

## Meet our New Staff

**Rheannon Williams**

## Clinical Sales & Support, NSW South & ACT

With a background in Exercise & Sport Science, Rheannon graduated from a Bachelor of Health Science (Nutritional & Dietetic Medicine) in early 2020. After graduating, Rheannon went on to practice as a Clinical Nutritionist, primarily working within the sports nutrition domain. Between Rheannon's own personal sporting experience, passion for allied health, and her drive to enable people to improve their physical performance, accepting a role with Össur as an Area Sales Manager in NSW was a natural step. Rheannon is ecstatic to be a part of the company and is dedicated to providing clinicians with the resources and support required to restore the joy of movement to their patients.

## Össur Celebrates 50 Years

This year, we are excited to be celebrating 50 years of Össur. Össur was founded in 1971 by Össur Kristinsson, a Prosthetist/Orthotist in Iceland who developed a silicone prosthetic liner that he called Icross®. Now 50 years later, we're proud to be continuing his mission to pioneer mobility solutions based in science and innovation, allowing people around the world to live #LifeWithoutLimitations.
