## Introducing the Rebound<sup>®</sup> Knee Immobilizer

Össur is pleased to advise of our latest product upgrade, soon to be introduced to our customers in Australia and New Zealand. From mid-August 2021, the Rebound Knee Immobilizer will replace the Formfit Knee Immobilizer.

Indications for the brace remain unchanged; however, the Rebound Knee Immobilizer will offer the additional clinical feature of MR Conditional rating.

Please note the product codes will change, see conversion table below, and a new 12" length model will be added to the range. All product pricing will remain the same as previous product codes, including tender and contract pricing where applicable.

Additionally, in support of our carbon neutral goals for 2021, the new updated brace will now be shipped flat packed in a zip lock bag that is shelf stackable, thus reducing any unwanted box packaging and saving storage space for users.

If you would like more information, please reach out to your local Össur representative or contact our Customer Service Team on 1300 123 268 with any questions you may have.
