## Introducing the **NEW** REBOUND® POST-OP ELBOW

### Lightweight and Simple To Use

The Rebound® Post-Op Elbow brace by Össur combines intuitive features for fitters and users with a design that aims to improve the post-op experience. The industry's only elbow immobilizer that combines a drop-lock hinge and four telescoping paddles, individual post-op protocols are easily catered to. The Rebound Post-Op Elbow, lightest of its kind, promotes user comfort with straps that stay in place, anatomical left/right fit with mouldable stability cuffs, and blue patient touch-points for easy education. The Rebound Post-Op Elbow will be replacing the Innovator X® Post-Op Elbow from mid-September.

## Features and Benefits

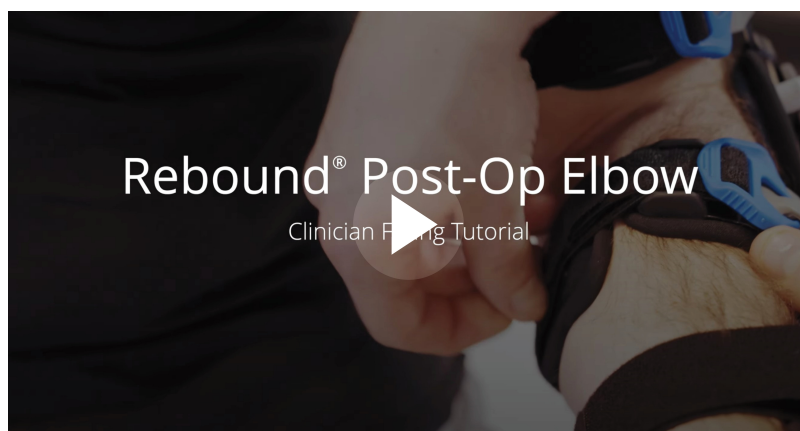

- 1 One Touch™ Drop-lock hinge
- 2 Four telescoping paddles for easy adaptability to individual post-op protocols
- 3 Strap guides keep straps in place
- 4 Moldable stability cuffs promote user comfort
- 5 Blue is You™ colour-coded buckles and drop lock for easy patient education and product use

## Indications

- Stable fractures of the elbow, distal humerus, proximal radius or ulna.
- Tendon and ligament injuries or repairs.
- Collateral ligament reconstructions.
- Elbow hyperextension.
- Triceps tendon repair.
- Chronic elbow injuries.
- Tennis elbow release.

## Don't Miss Out on our Next Webinar

### Tackling Osteoarthritis An MDT Approach

In this webinar, Matthew Williams will explore in-depth how to tackle OA effectively using an MDT approach. You will learn about the rationale behind an MDT program, including a clinical case study highlighting the utility of the Össur Unloader braces. This webinar will also cover a comprehensive definition of OA and review the current guidelines for OA management. Importantly, Matthew will discuss the key elements of MDT care and how best to implement an MDT program.

#### About Matthew Williams

Matthew is an Allied Health Manager at a mobile workforce in the NDIS and Aged Care Sectors. He recently worked as a Physiotherapist and Musculoskeletal Coordinator at the Royal North Shore Hospital Osteoarthritis Chronic Care Program, a position he held for 8 years and assisted in the expansion of the program in the public and private sectors. Matthew continues to actively contribute to research on the benefits of conservative management for OA sufferers and has consulted in a number of working groups implementing conservative multidisciplinary programs. Most recently he presented the Australasian region for the World Health Organisation in developing a package of rehabilitation interventions utilised globally.

**Date:** Thursday, 23 September 2021

**Time:** 7:00pm - 8:00pm (AEST)
