Rebound[®] Diabetic Walker

The design of the Rebound Diabetic Walker focuses on effective treatment of plantar foot ulcers. With patients' compliance secured, studies have shown removable walkers to be as effective as total contact casting in healing diabetic foot ulcers, but with significant advances when it comes to ease of use, ulcer monitoring and the degrees of treatable ulcers.

The Rebound Diabetic Walker has major advantages over shoe inserts, as well as total contact casting due to its ease of use, speed of application and low cost.

Key Features

- ✓ Effective tri-laminate insole with removable shock-absorbing hexagons
- ✓ Flex Edge® technology for relief of pressure points
- ✓ Soft and breathable, low friction and machine washable liner
- ✓ Unique pressure relief valve for preventing over-inflation
- ✓ Rocker Bottom outsole for a smooth roll over

DH Offloading Post-Op Style Shoe

The DH Offloading Post-Op Shoe is the perfect solution for effective offloading of diabetic foot ulcers and other plantar wound conditions. This shoe can be an excellent alternative to post-op style shoes to accommodate the ambulatory and compliant patient for short-term treatment.

Key Features

- ✓ Designed to accommodate either left or right foot
- ✓ Designed to accommodate bulky dressings
- ✓ Removable toe pieces aid in wound accessibility for daily wound site inspection
- ✓ Provides stability and simple to apply/adjust/remove
- ✓ Nylon upper with reinforced heel counter

Don't Miss Out on our Next Webinar

Foot Wound Offloading in Central Australia

Presented by Andrew Jolly (cPO) and Gabrielle McNamara (Podiatrist), this webinar discusses the health services operating in Central Australia that cover an area of nearly one million square kilometres, including services for users living in remote settings across the lower half of the NT, APY Lands (SA) and across the border into WA. Hear about the challenges and enablers to effective foot wound offloading in this setting and the novel initiatives underway to increase access to foot wound offloading that is culturally and environmentally appropriate for the region.

About Andrew Jolly

Andrew is a prosthetist/orthotist, currently working to support the administration of the Congress Allied Health Service. Andrew has been involved with the development of high risk foot services in rural, remote and low resource contexts, including Kiribati, Samoa and Alice Springs.

About Gabrielle McNamara

Gabrielle is a Podiatrist, currently working in a Project Podiatry role with Congress Allied Health Service as part of the Diabetes Related Foot Complications Program. Gabrielle has experience working in Community Health, Hospital, and Aboriginal and Torres Strait Islander health care settings. Gabrielle is passionate about working with diverse communities and advocating for equitable health access.

Date: Wednesday, 3 November 2021

Time: 7:00pm - 8:00pm (AEDT)

Important Delivery Delay Notification

Due to an overwhelming number of online orders throughout Australia and the need for our freight companies to be Covid safe, we are experiencing some delivery delays getting shipments to our customers. We're working around the clock to process and deliver your order as quickly as possible, and will be marking all shipments as urgent medical goods to ensure the carriers prioritise Össur shipments.

Thank you for your understanding, we're grateful for your patience and will continue to provide updates as they become available.
