

Össur Mobility Clinic 2022

The team at Össur Australia were pleased to host the first Mobility Clinic event in over two years. The 2-day event took place on 11 - 12 April 2022 at The King's School in Parramatta. The event was a huge success, reaching the highest number of attendees at a Mobility Clinic in Australia to date with 45 Athletes and 42 Healthcare Buddies. The Mobility Clinic welcomed Athletes of all ages and abilities between 4 years and 78 years old!

Össur Head Coach, Cathy Howells and our team of amazing, specialised coaches ran all attendees through a range of activities like Taekwondo, Tabata workouts and Yoga! We introduced an arts and crafts element to the Mobility Clinic, where all our young Athletes were able to use their creative skills to make their own prostheses. It was fantastic to run

a face-to-face Mobility Clinic and we cannot wait for the next one in 2023!

Interactive Tool for Upper Limb Prosthetics

The new Interactive Tool for Upper limb prosthetics provides an overview of the components and accessories offered by Össur for myoelectric prostheses. This tool provides information for both i-Limb hands and i-Digits with a staged selection process for prescription.

Brad's RHEO KNEE® XC Story

Brad lost his right leg, above the knee in 2016 due to joint failure. In the 4 years after his amputation, Brad was fit with prostheses that were not suitable, resulting in falls daily which induced a broken right ankle, big toe, and he required bilateral shoulder reconstructions to repair damage from the falls.

Roughly 6 months ago, his prosthetist was able to justify to the NDIA that he needed a better solution. This is when Brad was introduced to the Össur **RHEO KNEE® XC** and **Vari-Flex®** foot. "I look forward to a long involvement with Össur and thank the team for helping me. I use my prosthesis each day and I feel much more capable than before. My gait and general mobility have improved."

My wife and I continue to raise beef cattle on our farm Össur's products are now part of our farm management plan. Going forward I feel confident that the **RHEO KNEE® XC** will continue to support me in this endeavour." - Brad
