

Pro-Flex® Terra

Pro-Flex Terra is a multi-blade prosthetic foot featuring an innovative pre-compressed top blade. It offers a truly unique combination of softness and flexibility associated with low-active feet, and extraordinary energy return associated with high-active feet.

Pro-Flex Terra's features enable users to be in full command, regardless of speed. With a soft heel and quick adaptation to uneven grounds and slopes, its design and high range of motion combine softness and power allowing users to think beyond placing their next step.

With a new level of versatility, the Pro-Flex Terra is the trusted partner for working in the office, playing sports with your kids, or hiking with friends, giving great performance for diverse daily requirements. It fits with all clothing, from exercise and swimming gear to business suits.

An easy-to-use snap-on foot cover gives users the ability to quickly remove the cover for cleaning, whether it is after a trip to the beach, working in the garden, or wading through autumn leaves. A SandalFix accessory is available to allow users to securely wear open heel footwear, such as sandals, by securely attaching the heel of the foot cover to the sandal.
