PRO-FLEX® ST

Pro-Flex ST is designed for low to high active users looking for flexibility and confidence to face everyday life activities. This versatile prosthetic foot provides a smooth rollover and controlled push off.

Pro-Flex ST makes it easy to go through the full stride on different terrains thanks to its multifunctional design, combining dynamics and ground compliance. As with all Pro-Flex devices, it features our proprietary three-blade design with a full effective toe lever and an anatomical split toe.

Pro-Flex ST contributes to a more fluid and natural progression from heel strike to toe off than a conventional energy storing and return foot. It has a sleek profile and comes with an aesthetically pleasing, anatomical foot cover and integrated male pyramid. Pro-Flex ST is rated waterproof, which means that it is fully resistant to both chlorine and saltwater submersion.
