Early Amputee Rehabilitation:
Pre-Prosthetic Management

Variance in early amputee rehabilitation can influence outcome measures regarding wound healing, duration of hospital stay, and early prosthetic functional outcomes. Evidence based practice, professional body best practice guidelines, and clinical experiences from a number of healthcare professionals around the world will be presented with a special interest in management of the lower limb amputee.

Össur Representatives: Lizzie Carey, Richard Hirons, David Lindgren, Anton Johannesson & Rachel Humpherson

Guest Speakers: Alen Cavka, Julia Earle & Matthew Fuller

Date: Wednesday, 1 March 2023

Time: 5:30pm - 7:00pm AEDT

Össur Academy Course Offerings!

Össur Academy is excited to be running in-house courses for both Direct Socket TT and Direct Socket TF in 2023, at our new facility in Melbourne.

Each course runs for two days, and participants will receive the hands-on training required to gain confidence and experience with the Direct Socket system in an environment that is removed from the everyday distractions of a busy clinic.

Direct Socket TT Course

Dates Available:

- 16 - 17 February 2023
- 2 - 3 May 2023
- 1 - 2 August 2023

Maximum number of participants: 4

[Download Agenda](#)

Direct Socket TF Course

Dates Available:

- 6 - 7 June 2023
- 5 - 6 September 2023
- 14 - 15 November 2023

Maximum number of participants: 4

Össur Waterproof Devices!

Check out the growing range

Whether it's fresh water, salt water or chlorinated water, waterproof Össur prosthetic legs and components will give you the maximum protection you need. The use of first-rate materials provides permanent protection against harmful ingress of water, even after submersion, whilst continuing to provide the functionality you expect.

Updated Guidelines on Power Knee™ Use with Osseointegration

Can Power Knee be used with bone-anchored implants (osseointegration)?

- **Yes.** It is safe, from a loading perspective, to use Power Knee™ with bone-anchored implants.
- This evaluation is based upon results from a recently completed (2022) study under the guidance of Prof. Laurent Frossard
- The study found that the forces created by the Power Knee™ were all well under the limit of what was considered as safe for bone-anchored implants (press-fit and screw-type).
- The subjects tested during this study were fitted to the Australian Press-Fit system (OPL)
- Össur has revised the indications in the Power Knee™ IFU to now be inclusive of bone anchored prostheses by removing the following statement: "*The device is to be used exclusively for the exo-prosthetic fitting of amputations of the lower limb*"
- **NOTE: Some bone-anchored system manufacturers may still have contraindications for use with actively-powered knee joints listed in their documentation.** OPRA system from Integrum (Dr. Rickard Bränemark, CEO) currently has a statement in their IFU indicating incompatibility with actively-powered knee joints

Power Knee™ Units are currently in stock!

We have **Power Knee™** Units on the shelf in our Melbourne Warehouse! We have added local stock of Power Knees to reduce overall wait time from order placement to receipt of the unit for your client.

Scott's Exciting New Career!

We are excited to announce the news that Scott Elliott, Prosthetics Managing Director Össur ANZ, has received a fantastic career opportunity to join the Össur Prosthetics Global Product Management team. This new role will see Scott relocating to our headquarters in Iceland, and will allow him to continue to explore his passion in assisting amputees and people living with limb difference, around the world, live a #LifeWithoutLimitations.

Scott has made an outstanding contribution in Australia, New Zealand and throughout Asia during his 17+ years of service. We are excited for what the future has in store and wish Scott and his family all the best for this new adventure.

We are actively recruiting for a replacement and welcome both internal and external applications. If you are interested in applying or would like more information about the role, please click the button below.
