

Hello {{Recipient.FirstName}},

We're excited to share some updates with you. In this edition, we invite you to attend our April webinar with world renowned knee expert Jane Rooney who will be sharing ground-breaking new research into conservative management options of complete ACL injuries. We also share a Miami J® Collar testimonial and its key features.

In this edition:

- [New Horizons in ACL Injury Management: The Cross Bracing Protocol for ACL Healing](#)
- [Miami J® Collar Patient Testimonial](#)
- [Miami J® Collar](#)

New Horizons in ACL Injury Management: The Cross Bracing Protocol for ACL Healing

Register Now for our April Webinar!

Össur is extremely proud to present world renowned expert, Jane Rooney! In this webinar, Jane will present on a new and exciting paradigm in the world of ACL management and how bracing can be involved in this new protocol to allow specific ACL ruptures to heal without the need for surgical intervention. Orthotic options which align with this protocol from Össur will then be discussed.

About Jane Rooney: Jane Rooney, FACP is a Specialist Sports Physiotherapist – sub specialty knee (as awarded by the Australian College of Physiotherapists in 2009) and Titled Musculoskeletal Physiotherapist (1997). Jane has extensive experience in the Sports Medicine field, working with athletes of all abilities, from recreational to professional athletes.

Date: 27 April 2023

Time: 7:00pm - 8:00pm AEST

Miami J[®] Collar Patient Testimonial

"Recently, I fit an inpatient with a Miami J 300 collar who was transferred from a hospital in Victoria. He was fitted with an alternative supplier collar originally and had a significant pressure area. I elected to change the patient to a Miami J 300 collar, and the patient's immediate feedback was the Miami J collar was much more comfortable than the other collar and was not interfering with the pressure area. The patient felt they were more supported, and the Miami J collar fit more appropriately. Patient also found that the liners were easy to replace and straight forward with donning and doffing."

- Abby Whitehouse, Orthotist / Prosthetist

Miami J[®] Collar

Known as the superior c-spine immobiliser through multiple independent studies, the Miami J's design meets the specialized needs of individuals with cervical injuries. Bioengineered to minimise pressure points in key known areas: Chin, occiput, trapezius, and clavicle. Miami J offers features that enhance compliance, while providing immobilization, inhibition of skin deterioration, and patient comfort.

Key Features

- Sorbatex™ padding is antibacterial that inhibits microbial growth, enhancing comfort, and helping assure patient compliance.
- Comfort adjustment buttons for occiput and sternal pad is removable when supine, in other lying positions, and swallowing.
- X-ray and CT lucent. MR safe.
