## The Wait is Over: CTi<sup>®</sup>3 Has Arrived!

CTi<sup>®</sup>3 brings a new vision to double upright knee braces. Innovative engineering makes CTi3 an excellent option for most of your patient population. Suitable for both everyday activities and sports, CTi3 offers great quality with its enhanced construction and anatomical fit for elevated comfort at an economical price.

- ✓ **Enhanced construction** - Lightweight, high-strength carbon composite frames provide the optimal stiffness-to-weight ratio.
- ✓ **Anatomical fit** - Designed to fit a wider range of leg shapes and includes an Accutrac® hinge to closely follow the knee's anatomical movement.
- ✓ **Elevated comfort** - Unique liners enhance comfort with their special tread block pattern, which provides a balance of cushion and ventilation.
- ✓ **Easy-to-use accessories and replacement parts** - including MX kits, impact guards, replacement strap sets, liner sets, and flexion stops.

## Global Health Campaign by Reuters

The Global Health Campaign, hosted by [Reuters.com](https://www.reuters.com), is tackling this question head-on with ground-breaking documentaries that showcase the latest innovations in healthcare and we at Össur are proud to be one of the companies featured.

We are excited to share our sustainability journey and commitment to improving the health and well-being of people worldwide.

## Unloader One® X Testimonial

Glenys shared that with the Unloader One X, ***"The benefits are that I became more mobile. I play lawn bowls and previously thought that I would have to give it up. Happily, I am now able to take part in tournaments again!"*** - Glenys, Unloader One X

*user.”*

Glenys was referred to an orthotic clinic by her Orthopaedic surgeon. Glenys is currently 81 years old and had polio as a child. She wore calipers as a child and in more recent times had a plastic custom AFO to control a left foot drop. Subsequently, her left ankle was arthrodesed and the knee is now the focus, as she experiences knee hyperextension and genu valgus with every step.

After trialling a number of different knee braces, the force of the knee hyperextension continued when in the braces. Glenys was introduced to the Unloader One X by her orthotist to attempt to change her knee alignment and control her knee valgus. With the Unloader One<sup>®</sup> X, Glenys managed to discard her walking stick and stated that she has better stability, and less knee hyperextension due to the robust hinge and strapping and has been able to play lawn bowls freely.

Unloader One X

## Welcome Back, Sarah!

This month, we welcome Sarah O'Callaghan back to our Australian sales team after spending the last twelve months looking after our New Zealand customers.

Sarah will now be servicing many of our Melbourne, regional Victorian and Tasmanian customers alongside Tim Amor and Neelesh Ravikumar. She will be reaching out to many of you to connect in the coming months.
