

NAVIGATING SUSTAINABILITY: OUR 5-STEP APPROACH TO SUSTAINABLE PRACTICES

Sustainable growth allows us to build a successful and responsible business for the benefit of future generations. Products and services should not only address present challenges but also balance resource efficiency and sustainability in order to be Responsible for Tomorrow®.

1 EMPLOYEE EMPOWERMENT

through active collaboration and encouragement. Advocate for viewing activities from all sides, ultimately ensuring benefits for People, the Environment, and overall Business.

2 DRIVE INNOVATION

because a sustainable future needs innovative thinking in moving from a linear to circular economy.

3 SUPPLIER COLLABORATION

is key for improved sustainability performance. Most of the environmental impact of global manufacturing companies lies in the supply chain and therefore we need to work together.

4 CLEAR STRATEGY & ROADMAP

so everyone knows where we are heading, why and what their responsibilities are.

5 MANAGEMENT OWNERSHIP

through active leadership and vocal support.

Embrace the journey towards a sustainable future. Let's minimize waste and create positive impact that lasts for generations to come.

**RESPONSIBLE
FOR TOMORROW®**

Össur is a leading global provider of innovative mobility solutions. We are focused on improving people's mobility through the delivery of Prosthetics, Bracing & Supports and accompanying Patient Care. Helping people live a Life Without Limitations® is why we exist as a company.
