Navii®

Connection guide Clinician

1 Download the App

Please note you need to be connected to the internet to sign up to Össur Logic.

2 A Click 'Sign up'

if you have never used Össur Logic app before.

B Click 'Login'

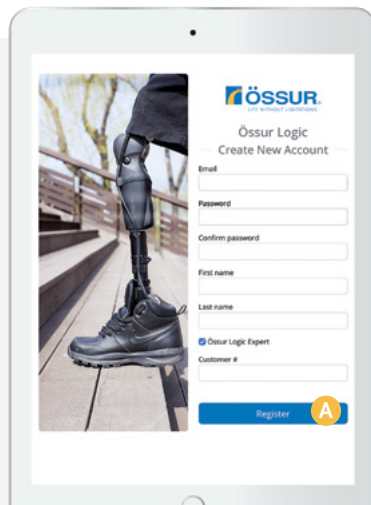

if you have created an account already. Log in with your email address and password.

3 A Create Login

Make your own login credentials and password.

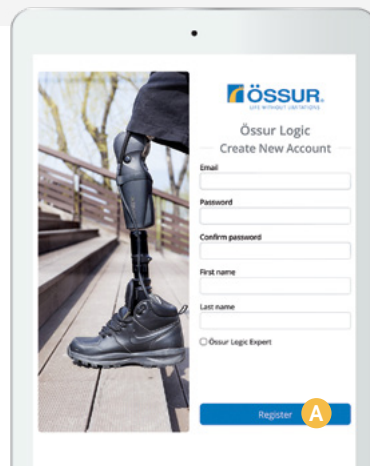

- For a Navii user (no access to settings), please click Register button and continue to step 5.
- For clinician access to settings, move on to step 4.

Please note after signing up to Össur Logic, you will need to confirm your email address by clicking the link emailed to you.

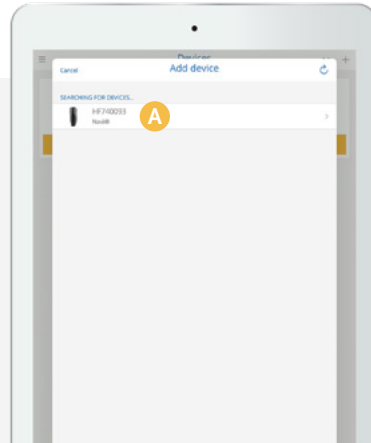

4 A Össur Logic Expert

Once you have entered your details, ensure you tick the Össur Logic Expert box and enter your customer number. The format of this will be **UKPxxxx**. This can be found on your ordering guide or from customer services (**03450065065**).

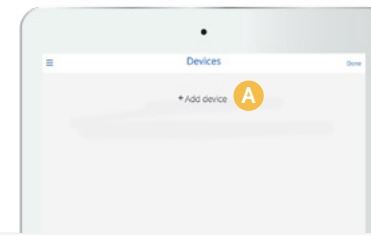

5 A Click 'Add device'

to add a Navii.

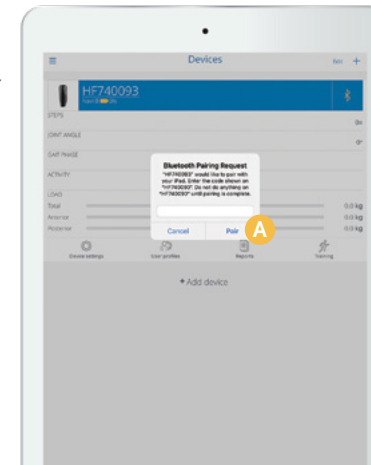

6 A Connect with Navii

Össur Logic will search for all the knees in range, to connect to it click on the Navii you want to connect to.

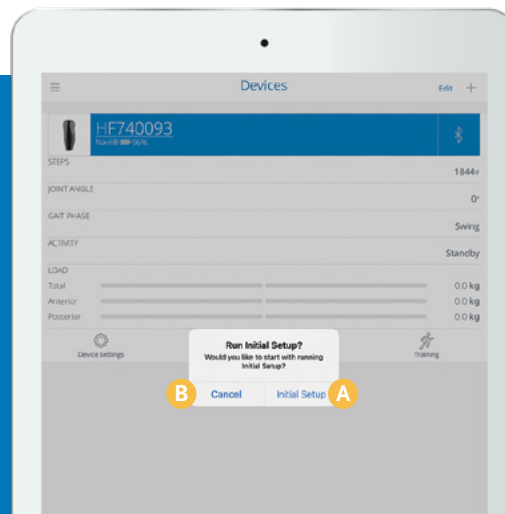

7 A Fill in 'pairing code'

Össur Logic will then ask for the pairing code of the knee, this is the PIN on the back of the knee. Enter the code and click 'Pair'.

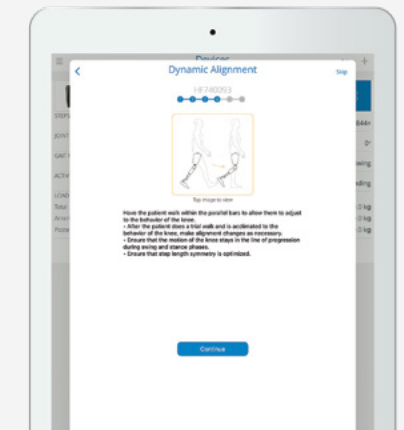

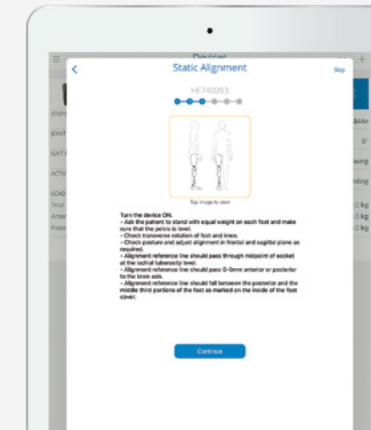

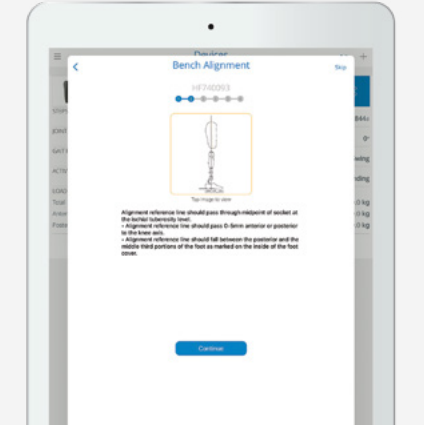

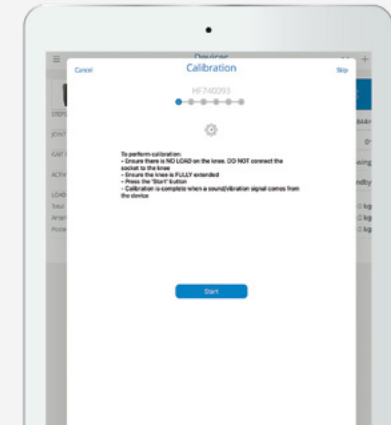

8 Ready for use

The knee is now connected to Össur Logic. Once connected, it will always ask if you want to 'Run Initial Setup'. You can press Initial Setup **A** or Cancel **B**.

9 Initial Setup

Click 'Continue' on 'Run Initial Setup' and follow the steps for 'calibration', 'bench alignment', 'static alignment', 'dynamic alignment', and 'helpful hints' as instructed.

10 A Auto Adjustment

The final step of Initial Setup is Auto Adjustment. Ask the user to sit down, click the 'Start' button and ask the user to walk 20 steps at their usual walking speed. After 20 steps, Auto Adjustment will turn off and the Navii will be set up.
