

Power Knee™ PDAC Letter

Effective April 1, 2025, the PDAC verification for Össur's Power Knee was updated in response to the creation of HCPCS code L5827. The PDAC contractor does not issue new or updated PDAC letters in this scenario. However, the most up-to-date product PDAC verifications can be found on the [Product Classification List](#) online. The Power Knee is now PDAC verified for codes L5827, L5856, and L5859, as shown in the screenshot of the PCL below. These three HCPCS codes should be used to bill for the Power Knee on any claims with a date of service on or after April 1, 2025. For any additional questions, please reach out to reimbursement411@ossur.com

Product Classification List Search Results

This list reflects products which have been submitted by the manufacturer for a HCPCS coding verification review. The assignment of a HCPCS code to the product(s) should in no way be construed as an approval or endorsement of the product(s) by the PDAC, DME MACs, or Medicare, nor does it imply or guarantee claim reimbursement. This list reflects the latest product information on file, therefore, the information displayed in the results table may differ from the search criteria you entered for manufacturer name, product name, and model number.
