

Hello,

In this edition, we are excited to share with you a CTi® Custom story from Liv, we ask for your feedback for webinars in 2024. Additionally, there is an update to the Miami TLSO™ 456 and we share our conference calendar for the remainder of 2023. Lastly, we have an update on our price increases for 2024

- [Miami TLSO 456 Update](#)
- [Conference Season 2023](#)
- [Price Increase 2024](#)

[Liv's CTi® Custom Story!](#)

*"After undergoing ACL reconstruction surgery in 2019, I unfortunately tore my ACL again in 2023 while playing football. I didn't want to undergo another knee surgery, mainly because I didn't have the time due to the upcoming snow season.*

*I started skiing at the beginning of this season without a brace. One day, I ventured down an ungroomed ski run, and as I made a turn on the heavy snow, I heard a loud and excruciating pop. I went home to get an MRI, which revealed that I had torn cartilage around my MCL. After that tear, I became too apprehensive to ski and was extremely cautious.*

*I decided to give the CTi Custom Brace a try to see if I could still ski. Since the brace arrived, I've been able to ski like I used to (although I haven't attempted jumps or park activities yet). It's been an incredible relief going down moguls and not worrying too much! I even had a tear in my eye, experiencing that feeling of skiing again without needing surgery." - Liv*

## Miami TLSO™ 456 Update

Now Available in a Universally sized option

**Compliance:** Blue is You™ patient touch-points help send patients home with confidence.

**Adjustability:** The universal belt design allows for setting the belt length on the patient for a more accurate sizing experience.

**Comfort:** Featuring the Miami LSO™ Advanced Compression pulley system with lumbar compression you can feel, and an anatomically contoured design that better immobilises the spine while maximising patient comfort.

**Ease of Use:** Easily applied with over-the-shoulder straps, the Miami TLSO brace requires minimal preparation and is designed to provide optimal patient comfort.
