Power Knee Rental Program

Based on the feedback we've received regarding our standard Power Knee trials, we are excited to announce the introduction of our new Power Knee Rehabilitation Rental Program.

Our standard Power Knee trial, of three weeks, remains available to you. The Rehabilitation Rental Program has been introduced for those looking for an extended period to assess the effectiveness of Power Knee for primary users, offering 3 and 6-month rentals, with a 3-month extension also available.

End-User Content Program

Earlier in the year we shared with you that we had added end-user-friendly information about Össur products on our website. As an extension of this, and in line with our 'client first' Global focus, we have recently added more end-user-friendly content around the Power Knee and Naked Prosthetics devices to our website.

Visitors to these pages online can opt-in for additional information to be received via email. For those requesting further information or immediate contact, we will be directing them to you, their Prosthetist, once we have spoken to them to ensure they don't have any contraindications. Please feel free to reach out to us if you have any questions about this.
