

Innovative Solutions:

Iceross Seal-In X Locking TF & Icelock 850 Hybrid

Iceross Seal-In X Locking TF Liner is a new silicone liner for users with transfemoral amputation from low to high activity levels, providing superior function by combining the benefits of lanyard suspension with the benefits of Seal-In vacuum. Paired with Icelock 850 Hybrid, users who prefer the direct, mechanical connection to the socket of locking liners can now experience the benefits of Seal-In vacuum and Unity elevated vacuum suspension by Össur.

The **Icelock 850 Hybrid**, available in three variants ([Direct Socket](#), [Laminated Socket](#), [4-Hole Socket](#)), is a new lock for lower limb amputees of all activity levels, providing superior function by combining the benefits of locking suspension with the benefits of vacuum suspension. The Quick Connect design allows for donning while seated and simple release with the push of a button.

To learn more about fabrication methods for the Icelock 850, join Rob Hodgson for a Technical session on Friday afternoon at

AOPA. You can also visit the Össur booth at AOPA, where our team will be available to assist you.

College Park Industries: Ready, Set, Distribute!

We are excited to inform you that the transition of College Park Industries distribution to Össur Australia & New Zealand began on 1st October 2024. As mentioned previously, we are enthusiastic about this change, as it aligns with our mission to offer innovative mobility solutions that enable a Life Without Limitations.

Important Updates:

- **Order and Price List Information:** We encourage you to place your orders through our Customer Care team, who are ready to assist you. Please reach out for an updated price list that includes our expanded product range.
- **Expanded Product Offerings:** Discover our enhanced range of innovative products tailored for your practice. Explore our offerings from College Park Industries [here](#).
- **In-Service Support:** Our trained team is fully prepared to assist your clinic with this distribution change. We are offering in-service sessions to provide detailed information and answer any questions you may have. Contact us to schedule a session at your convenience.
- **AOPA Showcase:** We will be showcasing a range of College Park products at the AOPA Congress on 24-26 October 2024. We encourage you to visit our booth to explore our innovative solutions and engage with our team to learn more about the products.

Össur AOPA After Party!

Following AOPA Congress, we're excited to invite you to the Össur Annual After Party! This will be a great opportunity to unwind and connect with colleagues from across the industry after a busy few days of learning and networking.

To help us plan accordingly, we kindly ask that you RSVP by Friday 11th October.

Date: Saturday 26 October, 5:30PM

Location: Canberra CBD

RSVP HERE

Welcome Nick Chiswell

We are pleased to announce that Nick Chiswell will be joining the Össur Prosthetics team in November as a Clinical Specialist. Nick brings 15 years of clinical experience across the public and private sectors, further bolstering our experienced team. Nick will assume responsibility for providing clinical and technical support to our Victorian customers as Sarah Mulroy moves into her Academy role.

We are excited to welcome Nick to the team and wish him and Sarah every success in their new roles.

Meet the Team

Price Changes Effective January 1, 2025

From 1 January 2025, Össur ANZ will implement a price increase across our range of non-contracted products. If you have any questions about this price change or would like a copy of our price list, please feel free to reach out to your local Össur representative or contact Customer Care.
