Find the Right Fit for Every Patient

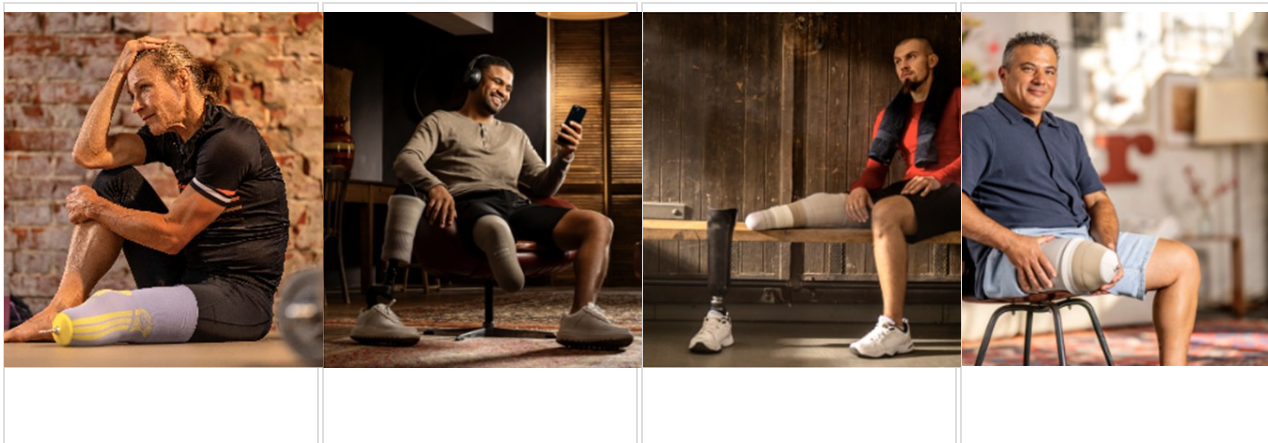

Choosing the correct liner for your patient starts with examining their unique characteristics and the condition of their residual limb. Factors such as limb shape, skin condition, activity level, and comfort requirements are essential for finding the best fit.

To support clinicians, we've created an intuitive [Liner Selection Tool](#) that guides prosthetists through assessing patient-specific needs and residual limb characteristics, ensuring a precise and personalised liner choice.

Explore the selection tool to enhance your decision-making and improve patient satisfaction!

Product Discontinuation Notice

Nike Spike Pad Kit

The **Nike Spike Pad Kit (FSX50008)** has been discontinued and will no longer be supplied with **Cheetah Xtreme** or **Cheetah Xtend**. The recommended alternative is the **Nike Spike Pad 2.0 – Kit (NSS50021)**, which remains available to order.

Iceflex Balance Sleeve

The **Iceflex Balance Sleeve** will be discontinued on **5 July 2025**. It will be available for purchase while stock lasts, but no later than **30 September 2025**.

We recommend the [Iceross Sleeve](#), [Iceform Sleeve](#), or [Genu Sleeve](#) as suitable alternatives.
