

Why Unloader® Stands Out: Proven Clinical Success

The Unloader One® is the Gold Standard in knee OA management, with its technology being thoroughly tested in 20+ biomechanical and clinical studies, proving its effectiveness in improving function for individuals with knee OA.

Here's what the data shows:

- **Provides supportive relief:** Patients report noticeable relief wearing the Unloader One® knee brace.
- **Improved Function:** With the Unloader One® brace, patients experience improved knee function, allowing them to return to the activities they enjoy.
- **Enhanced Mobility:** The brace helps redistribute the load away from the affected area, enhancing overall mobility.

Explore the evidence of the Unloader One® knee brace's proven performance and clinical efficacy. We're confident these studies reinforce its role as the Gold Standard in knee OA.

Significant Upgrades to Unloader One Accessories

We're pleased to announce targeted enhancements to the Unloader One brace accessories, designed to deliver real impact for patients and clinicians alike.

The newly upgraded **Sensil Anti-Migration Calf Liner** and **AMS Calf Wrap** now feature expanded silicone coverage for improved grip and stability. These refinements directly address concerns around brace migration and rotation, offering greater comfort and ease of use.

Now available on all new custom builds and progressively rolling out as stock of current components is depleted, these improvements reflect our continued commitment to innovation that supports better care.

Our Giveback Program - Recent Highlights

At Össur, we believe making a difference goes beyond the products we deliver, it's about how we show up for our communities.

Our amazing team got involved in a range of Giveback initiatives, including taking part in the Push-Up Challenge to support mental health, planting trees for a greener future, and donating blood to help save lives.

We're proud of what we've accomplished and excited for what's next. Because giving back isn't a one-time act, it's a way of doing business.

A Smarter System, a Better Experience for You

Behind the scenes, our Warehouse, IT and Customer Care teams have been working hard to upgrade our internal systems. The result is faster order processing, more accurate inventory tracking, and quicker responses from our team to better support you.

And yes, we had a little fun farewelling the old system, including a dinosaur to mark the end of an outdated era!
