

Össur Give Back Program

In 2024, Össur employees took part in a variety of community service initiatives through the company's Give Back program. These efforts included environmental clean-ups at beaches, streets, and parks, as well as supporting health causes through blood drives and fundraising for the Cancer Council and the Lung Foundation of Australia. Employees also volunteered with organisations like Samaritans Purse and the Australian Red Cross, helping sort gifts for families in need and assisting in food preparation and serving disadvantaged communities. These actions highlighted the company's commitment to making a positive impact.

We are proud of the success of the Give Back program and look forward to continuing our efforts with more community-focused events in the future. If you have any suggestions for organisations or causes we could support, we would love to hear from you.

[Affordable Osteoarthritis Relief: OA Ease Knee Brace](#)

The OA Ease knee brace is a groundbreaking solution designed to provide unparalleled comfort and support for individuals living with osteoarthritis.

This innovative product combines cutting-edge technology with user-centric design to relieve joint pain and improve mobility. The OA Ease with 3-Point Leverage System offers targeted relief, helping to reduce inflammation and discomfort, while allowing for a full range of motion.

Whether your patient is looking to stay active or simply improve their quality of life, the OA Ease is the perfect companion for managing osteoarthritis with ease, and at a price point that is affordable for many. Let your patients experience the difference today and take the first step toward living pain-free.

Adoption and Adherence: How do we get patients to do their exercises?

This webinar, presented by Ben Kirk, an experienced Physiotherapist, explores improving patient adherence to exercise by personalising plans based on interests, abilities, and lifestyle. We'll discuss how tailored, enjoyable exercises enhance consistency and long-term success.

February Webinar Session

Date: Tuesday, 25 February 2025

Time: 7:30pm - 8:30pm AEDT

Stance control KAFO options

with FIOR & GENTZ

This session, led by Tim Amor, Neuro Orthotics Business Development Manager, will focus on stance control knee joints from the FIOR & GENTZ range. We'll cover indications, pros and cons, technical specs, and casting alignment instructions. Tim will also discuss trial options from Össur and diagnostic casting techniques for determining patient suitability for stance control mechanisms.

March Webinar Sessions

Date: Thursday, 20 March 2025

Times: 1:00pm - 2:00pm AEDT | 6:30pm - 7:30pm AEDT

Exciting Opportunities at Össur

Join Our Bracing & Supports Team

Össur ANZ is looking for a motivated Area Sales Manager to join our Bracing & Support team in Perth, Australia, and Christchurch, New Zealand. These roles involve promoting our innovative product range, including the FIOR & GENTZ neuro orthotics, while driving sales and providing clinical education and customer support. If you have a background in health, strong sales skills, and a passion for patient care, we'd love to hear from you!

For more information or to express your interest, please reach out to Kerrie Blanch at kblanch@emblamedical.com.
