

Meet Navii®

Expand Your World

Hello,

We are thrilled to announce the launch of our latest innovation, Navii. This groundbreaking Microprocessor-controlled knee is set to revolutionise the Prosthetics industry with its cutting-edge features and unparalleled performance.

Navii – Boasting powerful stability and effortless swing, the next generation actuator offers instantaneous stance control, making it suitable for K2-K4 functional level users. With its IP68 waterproof rating and corrosion resistance, Navii can withstand any environment, while also featuring high activity capabilities such as seamless walk to run, cycling, and step-over-step stair ascent. Its variable position mechanical lock and removable protective cover make it the first of its kind, designed for both form and function.

Additionally, Navii comes equipped with Össur Logic training

exercises and advanced settings, setting a new standard for prosthetic knee solutions.
