Unloader One X® Brace Experience

As a senior physiotherapist, I am impressed with the Unloader One X Brace from Össur. It's one of the best dynamic unloader knee braces available, combining streamlined design with lightweight comfort.

Patients using it report improved walking ability, reduced pain, and a return to their favourite activities. Families and friends have noticed a positive impact on their loved ones' lives, including enhanced work capacity and overall well-being.

It's gratifying to see patients avoid surgery and achieve such meaningful improvements. Our local Össur clinical support specialist, has provided great service with product training and educational assistance!
