Outcomes

Liner Wear and Care

Wearing a prosthesis puts stress on the skin - through pressure, friction, heat, and moisture. Without proper care, this can lead to irritation or infection.

Help your patients get the most out of their prosthesis by reinforcing:

- Daily cleaning of the liner and residual limb
- Correct donning and doffing techniques
- Knowing when to replace a worn liner

We've developed easy-to-share guides and videos to support these conversations in clinic.

NZOPA 2025

We're excited to be exhibiting at NZOPA 2025 (5-7 Sept) and showcasing the full Össur ANZ product range, including Össur, College Park, Naked Prosthetics, and FIOR & GENTZ.

Visit our stand to explore innovations in orthotics and prosthetics.

We're also hosting two hands-on workshops:

- **Day 1 Friday 5 Sept**

FIOR & GENTZ: Simplifying KAFO Prescriptions

- **Day 2 Saturday 6 Sept**

Built to Move: Live Direct Socket TF Fabrication, Fitting and Navii MPK Programming

Gain practical skills, clinical insights, and time with our expert team.

Two Experiences. One App. Stride Studio App

Studio Stride is College Park's hub for ICON microprocessor function, modes, and data. With separate interfaces for clinicians and patients, this intuitive app provides the appropriate tools for each user's success. While clinicians can easily access adjustments and custom modes, patients can see their step counter, walking speed and more. Stride Studio is available for download on Apple iOS and Android operating systems.

Clinical Specialist - NSW

We are seeking a Prosthetic Clinical Specialist to support our customers and further develop and grow our Prosthetics business. Ideally you would be based in NSW but candidates from other states in Australia would be considered. Please contact our People & Culture Coordinator, [Ashley Dube](#) for more information.

A Smarter System, a Better Experience for You

Behind the scenes, our Warehouse, IT and Customer Care teams have been working hard to upgrade our internal systems. The result is faster order processing, more accurate inventory tracking, and quicker responses from our team to better support you.

And yes, we had a little fun farewelling the old system, including a dinosaur to mark the end of an outdated era!
