

Helping You Keep Patients Moving This Winter

CTi® Knee Range

Supporting recovery, performance, and confidence throughout the winter season.

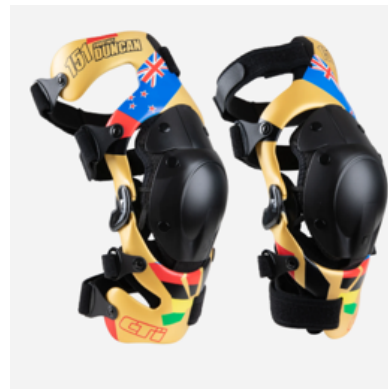

The CTi® range is built for athletes performing in demanding winter environments, delivering trusted ligament protection and stability across custom and prefabricated solutions for skiing, snowboarding, and mountain sports.

From rehabilitation to return to sport, CTi® is trusted by athletes who demand uncompromising stability while maintaining natural, confident movement on snow and uneven terrain.

CTi3

The perfect blend of quality, protection and affordability.

CTi Custom

Custom made to help you move with confidence, wherever sport takes you.

- ✓ Carbon composite frame
- ✓ Rock solid protection
- ✓ Optional accessories
- ✓ Four sizes available

- ✓ Carbon fibre frame
- ✓ Optional accessories
- ✓ Hand crafted to exact leg size and shape
- ✓ 12 standard colours and custom paint options

"I chose CTi3 braces because they are very light and fit extremely well. With CTi3 braces, I can ski with confidence, knowing that my knees are highly protected against common injuries"

The Future of Personalised Osteoarthritis Care

Beyond One Size-Fits-All

Join Professor David Hunter for an insightful webinar exploring the future of personalised osteoarthritis care and why moving beyond a one size fits all approach matters.

This session will cover emerging concepts in precision care, including targeted treatment strategies, digital health, biomarkers and future therapies designed to improve outcomes.

Date: Tuesday 9 June 2026
Time: 6PM - 7PM AEST
