

Introducing Navii Descent 2.0

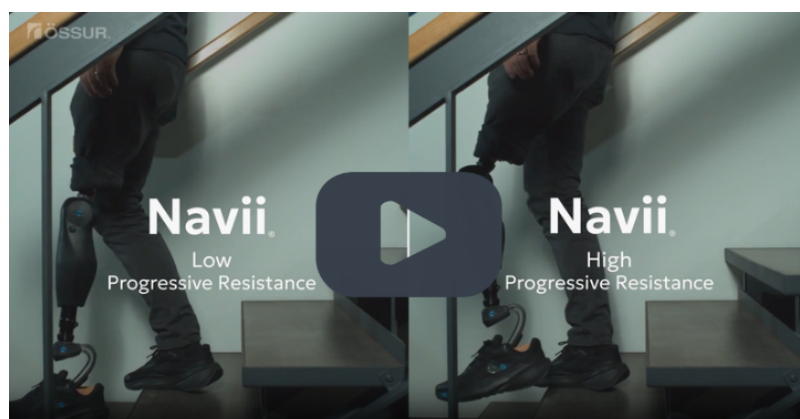

Expanding Control. Enhancing Performance.

Navii Descent 2.0 is now available, adding adjustable descent control through a simple in clinic firmware update.

Built on clinical feedback and real world use, this update introduces adjustable progressive resistance to support smoother, more continuous motion when navigating ramps and varied terrain.

With no hardware changes required, clinicians can unlock new functionality for existing Navii users and tailor descent support to each person's mobility, activity level and preferences.

Get started with Navii Descent 2.0:

Every partial hand presentation is unique. Functional goals, anatomy, activity requirements, and occupational demands can vary significantly between patients.

From mechanical devices to bionic and cosmetic solutions, the Össur portfolio is designed to help clinicians support a broad range of patient presentations and functional outcomes.

Explore Partial Hand Solutions

Mechanical Solutions

Designed to support functional grip patterns and task specific activities.

Bionic Solutions

Multi articulating technology designed to support dexterity and everyday function.

Cosmetic Solutions

Custom cosmetic options designed to support natural appearance and confidence.

AeroFit

The Ultimate Solution for Sweat Management

AeroFit System is more than a product. It is a new approach to prosthetic comfort and skin health. The innovative design helps reduce moisture buildup, supporting a more comfortable and secure fit for users.

Why AeroFit?

- ✓ **Breathable Innovation:** The unique design of AeroFit promotes airflow, reducing humidity accumulation and leaving the skin feeling drier.
- ✓ **Enhanced Comfort:** The breathable silicone structure ensures a secure and comfortable fit, improving overall user satisfaction.
- ✓ **Improved Skin Health:** By minimising humidity, AeroFit provides a healthier skin feeling, allowing users to stay active and confident.

Get introduced to AeroFit through our classroom catch-up below, or contact your Clinical Specialist for more information or to arrange an in-clinic demonstration.

Mobility Clinic

REGISTER NOW!

Our Next Mobility Clinics Are Just Around the Corner

Following an incredible Sydney Mobility Clinic, we're excited to continue the journey with two upcoming events this July.

Join athletes, clinicians, families and the wider limb difference community for a weekend focused on movement, confidence and connection.

📍 **PERTH** | WA Athletics Stadium
Sat 4 & Sun 5 July 2026

📍 **BRISBANE** | Queensland Academy of Sport (QAS)
Sat 25 & Sun 26 July 2026
