

Rebound® Post-Op Knee

Rebound® Post-Op Knee

Simple, Versatile Post-Operative Support

Designed to simplify post-operative knee management, the Rebound® Post-Op Knee combines a lightweight, easy-to-fit design with practical features that support controlled rehabilitation and patient confidence throughout recovery.

Key benefits

- Lightweight, tool-free design supports quick and straightforward fitting.
- OneTouch™ range-of-motion hinge allows fast and precise adjustments.
- Telescoping frame helps clinicians achieve a more customised fit.
- Colour-coded buckles and numbered frame markings simplify application and adjustment.
- Available in universal, left, right, paediatric and XL options.

Suitable for:

ACL, PCL, MCL and LCL repairs, meniscal repairs, fractures and osteochondral procedures.

We're Exhibiting!

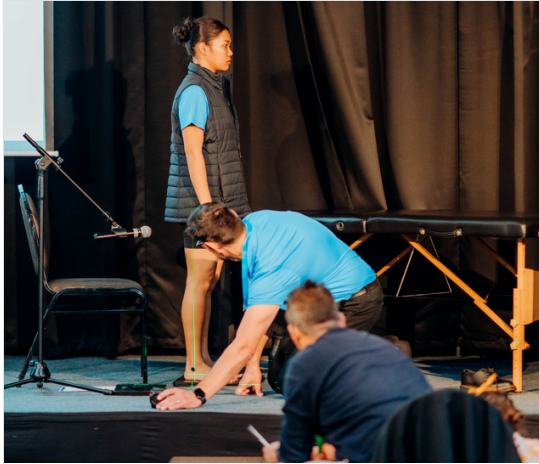

See You at NZOPA 2026

4 to 6 September 2026

Visit the Össur stand to explore innovative solutions across the rehabilitation pathway, from post-operative care and advanced orthotics to prosthetics and microprocessor technology.

HANDS ON WORKSHOPS

Join our clinical education sessions on Saturday 5 September.

NEURO SWING AFO Implementation Post Stroke

Saturday 5 September

11:00 am - 12:30 pm

Presenter: Tim Amor

Participants will explore the use of NEURO SWING AFOs in post-stroke rehab and gain hands on experience with device setup, calibration, functional assessment, and basic gait training concepts to support clinical decisions with AFOs to maximise neuroplasticity and patient outcomes.

Össur Partial Hand Solutions

Saturday 5 September

1:30 pm - 3:00 pm

Presenter: Wolfgang Uken

Explore Össur's bionic, mechanical and cosmetic partial hand solutions through interactive workstations covering assessment, intake and solution selection. Gain practical skills to confidently match the right solution to the right user.

Visiting NZOPA?

Speak with the team and discover our latest orthotic, prosthetic and bionic solutions.

NEURO SWING FIT TEST AFO Loan Kits

Did you know clinicians can borrow a **NEURO SWING FIT TEST AFO** before prescribing a custom-made device?

These pre-produced test orthoses allow you and your patient to experience the function and benefits of the NEURO SWING system while assessing patient suitability and supporting treatment planning.

Why use the FIT TEST AFO?

- Evaluate patient suitability before prescribing a custom-made AFO.
- Experience the function of the premounted NEURO SWING Carbon ankle joint.
- Trial the full selection of spring units to support optimisation.
- Support more confident clinical decision making and treatment planning.

Complete the **NEURO SWING FIT TEST AFO Request Form** to arrange a loan kit and experience the difference firsthand.
