

Resources for Confident Clinical Decisions

Navii Descent 2.0 builds on the proven stability clinicians already trust, introducing adjustable progressive resistance to provide greater control and smoother support throughout stance during descent.

Available through a simple in-clinic firmware update, it allows clinicians to fine tune performance based on each user's mobility and preferences, while extending new functionality to existing Navii users.

To help you get the most out of Navii Descent 2.0, we've created three practical resources:

See You at NZOPA 2026

4 to 6 September 2026

Visit the Össur stand to explore innovative solutions across the rehabilitation pathway, from post-operative care and advanced orthotics to prosthetics and microprocessor technology.

HANDS ON WORKSHOPS

Join our clinical education sessions on Saturday 5 September.

NEURO SWING AFO Implementation Post Stroke

Saturday 5 September

11:00 am - 12:30 pm

Presenter: Tim Amor

Participants will explore the use of NEURO SWING AFOs in post-stroke rehab and gain hands on experience with device setup, calibration, functional assessment, and basic gait training concepts to support clinical decisions with AFOs to maximise neuroplasticity and patient outcomes.

Össur Partial Hand Solutions

Saturday 5 September

1:30 pm - 3:00 pm

Presenter: Wolfgang Uken

Explore Össur's bionic, mechanical and cosmetic partial hand solutions through interactive workstations covering assessment, intake and solution selection. Gain practical skills to confidently match the right solution to the right user.

Visiting NZOPA?

Speak with the team and discover our latest orthotic, prosthetic and bionic solutions.

Supporting Early Patient Education

The **Back to Life** brochure is designed to support new upper limb amputees and their families during the early stages of prosthetic care.

This patient focused resource provides foundational education around upper limb prosthetic options, rehabilitation and the broader patient journey.

Empower Your Patients Beyond the Clinic

From the golf course to the surf, our upcoming Mobility Clinics inspire participants to build confidence, develop new skills and experience movement in a supportive environment.

Encourage your patients to attend and join them on the day to provide hands on support, strengthen clinical relationships and see functional outcomes in a real world setting.

NEWCASTLE

Mobility Clinic on the Waves

MELBOURNE

Mobility Clinic on the Green

Saturday, 17 October 2026

Newcastle Surf School

Encourage your patients to catch a wave and challenge themselves in a safe environment. Led by Australian Surf Champion Jade 'Red' Wheatley, this clinic offers a fun, supportive introduction to surfing.

Tuesday, 29 September 2026

The Metropolitan Golf Club

Help your patients take a swing at something new. Led by Össur Champions Mike Rolls and Shaun Bakker, this clinic explores golf fundamentals, mobility, balance and coordination in a welcoming setting.
